

CLEAN • DARK • FLAT • QUIET

Sea Turtles love Caswell Beach!

There are many sea turtle nests located on Caswell Beach and many mama turtles are still looking for a safe place to dig their nest at night. Please be respectful of the nest areas (marked with stakes, and a NC Wildlife Resources Commission sign).

CLEAN

Pick up trash and remove your belongings when you leave each day.

Tents and chairs are a danger to nighttime walkers and can ensnare nesting turtles.

Help keep our lovely beach clean and free of debris.

DARK

No flashlights or flash photos around turtles.

Please turn off outside ocean facing lights and close blinds/curtains.

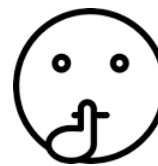

Lights disorient turtles and affect their survival rates.

FLAT

PLEASE Fill in holes and knock down tall sand castles.

Help prevent injury to fellow beachgoers, emergency responders AND turtles. Day or night.

QUIET

Keep your distance from nesting turtles, stay at least 20 feet behind and stay quiet.

NEVER walk in front of a turtle or shine any lights (white or red) on a mama turtle or a hatchling.

**When nests are ready to hatch, you are welcome to sit with our permitted teams to observe!
Ask any questions you'd like and please follow their directions.**

***Call us at 910-368-6323 if you see any turtle activity! Day or Night!**
